*D*                    *E*                    *G*                    *D*  
I'm trying to    forgive myself    for feeling what    you never felt  
*D*                    *E*                    *G*                    *D*  
and take the bottle down from the shelf    and pour it in a glass

*Bm*                    *E*                    *G Gm*                    *D*  
oh how it flows                    I know I know I know it overflows  
*Bm*                    *E*                    *G Gm*                    *D*  
stuck in my throat                    I know I know it's hard to swallow

*D*                    *E*                    *G*                    *D*  
I'm trying not    to blame myself    for holding on    to love withheld  
*D*                    *E*                    *G*                    *D*  
and loose the strings unbuckle the belt    around the waist of time

*Bm*    *E*                    *G Gm*                    *D*  
tight hold                    I know I know I gotta let it go  
*Bm*— *E*                    *G Gm*                    *D*  
white knuckles                    open hands are not as full

*F5*                    *G5*    *F5*                    *G5*  
my wrist is watching my sleeve wonderin' when it'll bleed  
*F5*                    *G5*    *F5*                    *G5*  
oo time and heart is racing either way they beat me

*D*                    *E*                    *G*                    *D*  
I'm trying not    to think about    the stains you left    that won't come out  
*D*                    *E*                    *G*                    *D*  
I'll wash and dry and throw in the towel    I'll bring tie dye—I'll bring tie dye back in
